EXPERIENCE

MicroGenesis Tech Soft Pvt. Ltd.[\[Certification\]](#)

Software Engineer Intern

Bangalore, Karnataka

12 June 2023 - 28 July 2023

- Collaborated with a team to provide an **Object detection web application** that parses live streaming video through an UAV and recognise Naval ships and all kinds of water bodies with accuracy upto 80%.
- Spearheaded the integration of SAR and UAV image analytics into Yolo-V5 for advanced object detection, resulting in a 12% increase in accuracy and 15% reduction in false-positive.
- Developed a software application that parses TIFF file (upto 38.4Gb) using a XML file to extract the image data for efficient image annotation and training.

PROJECTS

Image Classification [\[See Code\]](#)

- Built a Random Forest-based model on CIFAR-10 dataset for efficient and cost-effective image classification.
- Tuned hyperparameters (`max_depth`, `n_estimators`, `max_features`, `min_samples_split`) to balance performance and simplicity.

Heart Disease Prediction [\[See Code\]](#)

- Built a predictive machine learning model to detect heart disease using patient health records.
- Implemented logistic regression, decision trees, and neural networks to compare model performance.

Sales Price Prediction [\[See Code\]](#)

- Developed a machine learning model to predict sales prices using historical sales data.
- Implemented feature engineering and gradient boosting models to improve price prediction accuracy.

Score-Keeper [\[Try it here\]](#) [\[See Code\]](#)

- Created a website that keeps score for 2 players, setting a max winning point with termination logic.
- **Technologies:** NodeJS, MySQL, ExpressJS, Mongoose, Git, GitHub.

EDUCATION

Master of Technology, National Institute of Technology Delhi

Expected 2026

Mathematics and Computing

Bachelor of Technology, University of Allahabad

2020-2024

Computer Science and Engineering

CGPA: 8.27

ACHIEVEMENTS

- **250+ Leetcode Problems Solved:** Enhanced problem-solving and coding skills.
- **Tech Head – College Fest:** Led the technical team, managing software development and event campaigns.

SKILLS

Programming Languages:

C, Java, Python, HTML, CSS, JavaScript, SQL

Web Development:

Flask, Node.js, Express.js, React.js, Django

Databases:

MySQL, SQLite, PostgreSQL, MongoDB

Tools

Git, RESTful APIs, Postman

Data Science:

Tableau, Matplotlib, pandas, NumPy, scikit-learn, TensorFlow, PyTorch
