SUMMARY

Passionate and dedicated researcher with a strong interest in mathematical modeling and environmental science, focusing on coral reef ecosystems. Possessing extensive knowledge in analyzing the complex interactions between climate change, human activities, and coral bleaching, I am adept at employing advanced mathematical techniques and computational tools to develop predictive models. Committed to contributing to the preservation and restoration of coral reefs through innovative research and collaboration with interdisciplinary teams.

EDUCATION

Ph.D in Climatology

National Institute of Technology

Start from June'24

New Delhi

M.Sc. Mathematics

National Institute of Technology

Aug'21 – June'23

Silchar, Assam

CGPA: 8.54

B.Sc.

Gujrat University, Ahmedabad

Jun'18 – Jul'21

Ahmedabad , Gujarat

CGPA: 6.51

XII

B.M. Patel School

2018

Jamnagar ,Gujrat

Percentage: 82%

INTERESTS

My doctoral research integrates climatology, data science, and disaster risk management to address the growing threat of tropical cyclones in a changing climate. I specialize in applying machine learning models to enhance the forecasting of cyclone paths and intensity. Beyond prediction, my work involves a deep analysis of storm destructiveness, utilizing metrics like the Power Dissipation Index to understand how the hazard potential of these extreme weather events is evolving over time. Ultimately, my goal is to translate this fundamental research into actionable insights and tools that can improve climate resilience and protect vulnerable populations.

PERSONAL PROJECTS

A Modified Line Search Based BFGS Bi-Objective Optimization Techniques to Enhance Stock Matching Trading Strategy

M.Sc Final Year Project

 May'23

 National Institute of Technology,Silchar

Topology

As a Project Assistant

 Jan'22-Feb'22

 Indian Institute of Technology,Delhi

LANGUAGES

Gujrati

Hindi

English

WORK EXPERIENCE

Winter Research Internship Programme

IIT Delhi

 Jan'22 -Feb'22

Internship in Data Analytics Software Developer

TST Technology

 May'22 -Jul'22

SKILLS

python

Machine learning

CDO & GrADS

Strong geography knowledge

Multitasking

HOBBIES

Photography

Debate

Travelling

ACHIEVEMENTS

CSIR-NET JRF Jun'22

Secure All India Rank 14

📅 Junior Research fellowship awarded

IIT-JAM 2021

Secure All India Rank 1633

INSPIRE Scholar

ACTIVITIES AND CERTIFICATIONS

Junior Research fellowship for Ph.D

CSIR-India

📅 June'22

NCSC-2014 on Weather and Climate

NTSTC,DST and Govt. of India

📅 Nov'14

National level RURAL IT QUIZ

TATA Consultancy Services

📅 2013 and 2014
