# HEMANT YADAV

## Full Stack Developer | MERN Stack | AI-Enabled Web Applications

Noida, Uttar Pradesh | +91-7618420994 | Hemant.yadavdev@gmail.com

## PROFESSIONAL SUMMARY

Technical professional with 2+ years of experience building full stack web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in developing responsive interfaces, REST APIs, database-driven features, authentication flows, and practical AI-assisted functionality through API integrations. Strong foundation in JavaScript, data handling, debugging, and delivering simple, maintainable software for business users.

## TECHNICAL SKILLS

| | |
|---|---|
| **Frontend** | React.js, JavaScript, HTML5, CSS3, responsive UI development |
| **Backend** | Node.js, Express.js, REST APIs, authentication, server-side validation |
| **Database** | MongoDB, Mongoose, schema design, CRUD operations, aggregation basics |
| **AI Exposure** | AI API integration, prompt-based workflows, basic automation and summarization features |
| **Tools** | Git, GitHub, Postman, npm, VS Code, deployment fundamentals |

## PROFESSIONAL EXPERIENCE

**Full Stack Developer | Dignity of Noble** India

- Develop and maintain full stack web application features using React.js, Node.js, Express.js, and MongoDB.
- Build reusable React components, form workflows, dashboards, and responsive pages focused on clean user experience.
- Create REST APIs for user management, data submission, search, filtering, reporting, and application workflows.
- Design and update MongoDB collections and Mongoose models to support structured, reliable application data.
- Integrate AI-assisted capabilities such as text generation, summarization, and workflow automation through external APIs where required.
- Use Postman, browser developer tools, and logs to test APIs, debug issues, and improve application stability.
- Collaborate with internal stakeholders to convert requirements into working technical features and iterative improvements.

## SELECTED TECHNICAL WORK

**MERN Web Application Features**

- Built end-to-end modules with React interfaces, Express API routes, MongoDB persistence, and validation logic.
- Improved application usability through structured forms, reusable UI patterns, and cleaner client-side state handling.

**AI-Assisted Automation Features**

- Implemented basic AI API-driven workflows for generating, summarizing, and refining text-based business inputs.

## EDUCATION

**Bachelor of Technology (B.Tech) in Information Technology**

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Uttar Pradesh, India

## TECHNICAL FOCUS

Full Stack Development | MERN Stack | React.js | Node.js | Express.js | MongoDB | REST APIs | AI API Integration | JavaScript | Web Application Development
