SUHANI DWIVEDI

M.Tech | Mathematics & Computing | National Institute of Technology, Delhi

+91 8542926392 | suhanid600@gmail.com | Varanasi, India | linkedin.com/in/suhani-dwivedi-3439b425a/

PROFESSIONAL SUMMARY

Computer Science graduate with a Data Science specialization and practical experience in frontend development, data analysis, and machine-learning projects. Skilled in Python, and SQL with research interests on Impact of Climate on Coastal Regions, time-series analysis, and environmental data. Interested in applying computational methods to research and real-world problems.

EDUCATION

M.Tech. — Mathematics & Computing | *NIT Delhi* | *2026–Present*

B.Tech. — Computer Science Engineering (Specialization: Data Science) | *Bennett University, Greater Noida* | *2022–2026*

- CGPA: 8.69/10

Class XII & X — PCM | *Kendriya Vidyalaya, BHU, Varanasi (CBSE)* | *2022*

- Class XII: 74.4% | Class X: 84%

EXPERIENCE

Frontend Developer Intern | *Ganakgyan Technologies* | *Remote* | *Aug 2025–Feb 2026*

- Developed responsive user interfaces from Figma designs using React and Tailwind CSS.
- Used Git/GitHub, pull requests, and review feedback to collaborate in a remote development environment.
- Improved responsive layouts, error handling, and frontend performance.

Conference Proceedings

- Suhani, Pranjal Mishra, Nandani Agrawal (2026). Leveraging Machine Learning for Smarter Decision-Making and Resource Efficiency in Sustainable Agriculture. **18th International Asian Urbanization Conference, 2026**, Sindhu Central University, Leh Ladakh, August 2026. (Poster)

RESEARCH & PROJECTS

Hyperspectral Image Classification | *Research*

- Exploring feature extraction and classification methods for hyperspectral imagery, including machine-learning and deep-learning approaches.
- Worked with Indian Pines, Salinas, and Pavia University datasets; explored PCA-based dimensionality reduction and patch-based model inputs.

Not So Phishy — URL Safety Detector | *Machine Learning*

- Built a Flask-based tool to assess whether a URL may be phishy or not using URL/domain features & a Random Forest classifier.

Digital Dietician & Flashcard Applications | *Academic Projects*

- Developed a diet-planning website concept and a flashcard application to support everyday diet planning and memory revision.

Smart India Hackathon | *Participant* | *2023*

- Contributed to a concept on connecting small wool retailers/producers directly with markets to reduce dependence on intermediaries. Achieved 9th rank at university level in 2023.

LEADERSHIP & ACHIEVEMENTS

- Girls' Volleyball Team, Bennett University — Vice-Captain (2022–2024), Captain (2024–2025), and Mentor (2025–2026).
- Recognized as "Sportsperson of the Year (2025–2026)."

TECHNICAL SKILLS

Programming: Python, C++, SQL

Data & ML: Data preprocessing, feature engineering, time-series analysis, Prophet, XGBoost, CNN fundamentals

Web Development: React, JavaScript, Tailwind CSS, HTML/CSS, React Router, Flask

Tools: Git/GitHub, Jupyter/Google Colab, VS Code

Professional: Leadership, teamwork, communication, time management, critical thinking
